Dear Alumnus,

## **Contribution to UTAR**

Warm greetings from UTAR.

Congratulations to you and your family on the successful completion of your studies and your graduation. On behalf of UTAR, I am both proud and delighted to celebrate this occasion of your convocation with all UTARians.

UTAR has consistently focused on excellence in teaching and research, and the provision of a well-rounded education for our students. It is important that our graduates gain good employment and are well-received by employers in the industry after graduation. As such, UTAR has received good recognition, both locally and regionally, on the quality of our graduates who are employed in the industry.

In the QS Graduate Employability Rankings 2022, UTAR is ranked #201-250 globally, and ranked Top 3 in Graduate Employability in Malaysia in the Talentbank National Graduate Employability Index 2023. In addition, our graduate employability rate has been consistently between 95-97% within 9 months of graduation. In the latest QS Asia University Rankings 2024, UTAR is ranked #160 and ranked #302 globally in the QS World University Rankings 2023 for Employer Reputation. At the national level, UTAR has been awarded self-accreditation status by the Malaysian Qualifications Agency (MQA) since 2017. These are clear indicators of UTAR's recognition by both local and international authorities on quality education.

UTAR Hospital has already commenced operations in both Western Medicine and Traditional and Complementary Medicine. The hospital is UTAR's commitment to the community in support of the provision of affordable medical and health care services as well as the provision of clinical training for UTAR medical and health science students. The hospital has been built with the support of donors, philanthropists, organisations and benefactors who have contributed generously to the hospital's development.

Donations to UTAR Education Foundation also support the provision of financial assistance, such as scholarships and interest-free loans, to students in need, and to provide them the opportunity for university studies. Among the many benefactors and donors, are those from the UTAR community including alumni like you. UTAR deeply appreciates the support and the contributions of the university's alumni in all of its initiatives including the hospital.

UTAR also welcomes our alumni to contact us on employment and collaboration opportunities to link with our many university partners; and to share career and work experiences with juniors on campus.

We look forward to your continuous support and contributions for the sustainable progress of both the university and the hospital.

Lastly, I would like to thank you all for making UTAR proud of your achievements. I wish you all even greater successes in all of your endeavours.

Thank you.

With warm regards,
